Wireless Freedom. Paradigm Performance. A Better Audio Experience.

Make the decision to stream audio throughout your home and experience a new realm of effortless entertainment bliss. Streaming audio over your home's Wi-Fi network gives you instant access to an infinite personal playlist, app-controlled convenience and wireless speaker flexibility.

Paradigm's Premium Wireless Series delivers more dynamic streaming Wi-Fi audio. It accomplishes this with advanced engineering and high-quality materials, as well as DTS Play-Fi - the most innovative streaming technology available. The difference is clearly audible, with a wider dynamic range, crisp details and greater bass response.

Audio optimized for any space.

ARC™ Technology, with Paradigm's exclusive **Calibration Microphone**, uses advanced DSP algorithms to optimize speaker performance in any space. In just a few easy steps the microphone measures sound output, compares it to scientifically optimal response curves, and instantly adjusts your wireless speaker's output for perfect sound. You'll actually hear the difference **Anthem Room Correction** makes. No other wireless streaming audio system has it.
