## DISCOVER THE HIDDEN SOUND...

If it is the theatre surround sound experience you want to hear, but not see, the Mission C-Series installation speakers are the answer!

With over decades of experience in design and building loudspeakers, the experts at mission proudly announce a new range of installation speakers, the C-Series.

Consisting of 6" in-ceiling speaker, an 8" in-wall loudspeaker and a 12" 500W subwoofer to complement the existing range; the C-Series has been developed to be near invisible and blend into existing décor and environments, removing the requirements and spatial needs of conventional floor standing loudspeakers.
