

Millenia™ LP XL LCR On-Wall Speaker

Perfectly at home with 60"+ flat panels

Performance. Power. Design. And the perfect fit for today's 60"+ flat panel TVs. While Millenia LP XL is designed for anyone who wants a better musical experience, its artful design is especially at home beside the newest generation of flat panels. Today's larger TVs go hand-in-hand with larger rooms, putting higher requirements on speakers.

Millenia LP XL can play louder and at lower frequencies to better blend with a sub. Millenia LP XL is high-end audio that's discreet for its size and power it sits a mere 1-3/4" from your wall! While ideally suited to wall-mounting, Millenia LP XL is perfectly at home on a credenza or A/V stand (stands included). A brushed, black aluminum faceplate with brilliant chrome accents give Millenia LP XL a sophisticated, clean look that reminds you of the science and technology cleverly contained within.

- **Four Passive high-velocity Radiators** achieve deep base - an astounding 60 Hz! While conventional ports drive base, space constraints prevent their use. High-velocity radiators are the answer and the result is a solid, stable design, unhampered by vibrations and resonances for clean, articulate bass performance.
- **Tweeter design:** A sophisticated Phase Ring camouflaged inside the screen improves high frequency response. It's the details that help to deliver the defining Paradigm Sound.
- **Aluminum cones:** Aluminum yields less distortion than polypropylene by moving resonance out the drivers pass band. The result is clean and clear sound - in just 1-3/4" profile.
- **Clean Aesthetics:** Perforated tweeter dome and a one-piece baffle streamline the look Millenia LP XL. The results is a speaker of epic looks ... and epic sound!

< Includes stand for tabletop use

Seismic 110

MilleniaSub

SE Sub

Round out Performance with a Paradigm Subwoofer

No one designs and builds subwoofers like Paradigm. We offer the largest line in the industry. And while Millenia LP XL sounds great right out-of-the-box, there's a subwoofer to perfectly complement Millenia LP XL and your room. Consider the MilleniaSub or Seismic 110, both from Paradigm's Reference Collection, or the SE Sub from Paradigm's Classic Collection. All three offer great bass to complement your space. Ask your authorized Paradigm dealer for details.

Finish

Gloss Black

Design	7-driver, 2-way bass-reflex includes tweeter/midrange drivers and passive radiators.
Crossover	2nd-order electro-acoustic at 2.6 kHz
High-Frequency Driver	One 25-mm (1 in) S-PAL™ dome, ferro-fluid damped/cooled
Bass/Midrange Drivers	Two 114-mm (4-1/2 in) anodized unibody cones, 37-mm (1-1/2 in) high-temperature aluminum voice coils, Nomex spider, Nitrile-Butadiene rubber surround, neodymium magnet, basket integrated motor heat dissipation system, tempered steel heatfin basket.
Passive Radiators	Four 114-mm (4-1/2 in) anodized unibody cones, Nitrile-Butadiene rubber surround, precision-tuned resonance system.
Low-Frequency Extension*	60 Hz (DIN)
Frequency Response:	
On-Axis	±3 dB from 120 Hz – 21 kHz
30° Off-Axis	±3 dB from 120 Hz – 15 kHz
Sensitivity – Room/Anechoic	92 dB / 89 dB
Suitable Amplifier Power Range	15 – 130 watts
Maximum Input Power[†]	70 watts
Impedance	Compatible with 8 ohms
Dimensions (h x w x d)	33-3/4 in x 6-3/4 in x 1-3/4 in / 86.0 cm x 16.5 cm x 4.4 cm
Weight (unpacked)	9 lb / 4.1 kg each
Finish	Black gloss / brushed aluminum accents

* DIN 45 500. Indicates -3 dB in a typical listening room. [†] With typical program source provided the amplifier clips no more than 10% of the time. LCR = Left/Center/Right. One speaker required for each channel.
